

OUR MISSION

The Swiss Federal University for Vocational Education and Training SFUVET is Switzerland's expert organisation for vocational education and training. It offers basic and continuing training to VET professionals, conducts VET research, contributes to the development of occupations and supports international cooperation in vocational and professional education and training.

SFUVET's basic and continuing training courses are both research-based and practical, designed to enable VET professionals to optimally perform their tasks. Our research in vocational education and training focusses on the interrelationships between the education system and the labour market. At the same time, it allows SFUVET to monitor trends in vocational education and training and develop solutions for stakeholders. VET research is therefore essential for the analysis, optimisation and further development of Switzerland's VPET system.

New research findings are used to enrich the content of training courses at SFUVET, thereby influencing the practices of VET professionals. We provide both methodological and pedagogical support to professional organisations at all stages of the development of training programmes both at upper-secondary and tertiary level.

Our activities are geared to the needs of our clients and are based on the expectations of the labour market.

OUR VISION

As a Swiss higher education institution, we are the trusted partner for all matters relating to vocational education and training today and in the future.

OUR VALUES

Knowledge and know-how

As the Swiss University for VET, we contribute our knowledge and know-how and constantly develop these further. We base ourselves on research findings, practitioner requirements and social trends, particularly those relating to vocational education and training.

Client focus

We actively approach stakeholders and are trustworthy and flexible partners. We meet the needs of our clients in a proactive, innovative and sustainable manner and adhere to applicable regulations.

Quality

In our work, quality, efficiency and commitment to our clients are key, as well as profitability.

Action and communication

Our interactions are open and direct, allowing people to express their opinions freely.

Appreciation

We recognise the experience and creativity of others, share knowledge and support each other. Our cooperation endeavours are built on trust and appreciation.

A sense of responsibility

We take responsibility and act with loyalty. We honour our commitments.
